

## SPONSOR INVITATION

It is a pleasure to invite you to support the 3<sup>rd</sup> One Health EJP Annual Scientific Meeting, which will be held **9-11 June 2021 in Copenhagen, Denmark**. The event will be a **hybrid event** enabling participation **on-site and online**, and we expect at least 300-500 participants.

Annual Scientific Meetings (ASMs) are an essential part of the One Health European Joint Programme (OHEJP) for disseminating scientific progress of the various projects and for networking between partners and with the external scientific community. The event is organized in collaboration with Med-Vet-Net Association.

As this is the third OHEJP ASM, the concept is already well known to the target audiences. OHEJP ASM is an annual well-established event that strengthens One Health approaches and collaborations by connecting scientists and other **One Health experts from the public health, medical, veterinary, food and environmental domains across Europe and beyond**.

Main meeting topics

- Foodborne zoonoses
- Antimicrobial resistance
- Emerging microbiological hazards
- Joint and integrating actions to tackle the above challenges
